### PROFESSIONAL SUMMARY

Oracle Fusion Technical Consultant with hands-on implementation experience delivering integrations, reports, and application customizations across Oracle Fusion Cloud and external business applications. Skilled in OIC, REST/SOAP APIs, BI Publisher, SQL/PLSQL, FBDI, and Oracle ATP. Contributes across the full delivery lifecycle — from requirements, mapping, and technical design through development, testing, troubleshooting, documentation, deployment preparation, and production readiness. Confident leading technical discussions and coordinating solutions across business, functional, development, and infrastructure teams.

### TECHNICAL SKILLS

- **Oracle Fusion ERP & Technical Consulting**
  Oracle Fusion Cloud ERP, Receivables AR, Invoices, Receipts, Customer Data, Order management, Inventory, Supply Chain Execution, ESS Jobs, FBDI, HDL, UCM, BI Publisher, OTBI, Fusion tables, functional-to-technical mapping, technical documentation.
- **Oracle Integration & APIs**
  Oracle Integration Cloud, Oracle Process Automation, REST APIs, SOAP Web Services, JSON, XML, XSLT, WSDL, Salesforce integration, API payload mapping, error handling, integration monitoring, troubleshooting, and testing support.
- **Database, Reporting & Backend**
  Oracle SQL, PL/SQL, Oracle ATP, staging tables, packages, data validation, reconciliation, BI Publisher data models, parameters, XML/RTF templates, report scheduling, and output validation.
- **Development & UI Technologies**
  Visual Builder Cloud Service, Oracle APEX, Redwood UI, JavaScript, Node.js, HTML5, CSS3, Bootstrap, Java, Python, C, C++, MongoDB.
- **Tools & Delivery Practices**
  Git, GitHub, Linux, Agile/Scrum, API documentation, test cases, defect analysis, Requirements & mapping, stakeholder walkthroughs, CRP/UAT support, Deployment documentation, and Operational handover

### CERTIFICATIONS & PROFESSIONAL TRAINING

- **Oracle Cloud Certifications**
  - Oracle Cloud Infrastructure 2025 Application Integration Professional.
  - Oracle Redwood Application 2025 Certified Developer Associate.
  - Oracle Cloud Infrastructure Certified Foundations Associate – 2025.
  - Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate.
  - Oracle APEX Developer Professional, Oracle University - 2025.
- **Oracle Fusion & Cloud Training**
  - Oracle Fusion Cloud Development, Global Academy – 2025.
  - Oracle Fusion Technical Consultant, Next Academy - 2024.
- **Software Engineering & Web Development**
  - Software Engineering Program, ALX - 2023 -2024.
  - Professional Front-End Web Development, Udacity – 2023.
  - Full Stack & Front-End Web Development Nanodegrees, Udacity - 2019.

## EXPERIENCE

Apr 2026 - Present

**Oracle Fusion Technical Consultant | OIC & ERP Integration Lead**, *DTC*

- Design and implement Oracle Integration Cloud solutions connecting Oracle Fusion with external business applications across customer, product, pricing, sales order, inventory, shipping, invoicing, and receipt processes.
- Lead and facilitate technical meetings, mapping sessions, solution walkthroughs, defect analysis, and cross-team retesting with functional consultants, business users, developers, and infrastructure teams.
- Develop BI Publisher reports, SQL data models, ATP staging tables, PL/SQL packages, API services, validation logic, and automated processing controls.
- Create, test, and publish Oracle Fusion sandbox customizations, including application pages, embedded interactive reports, transaction hyperlinks, and navigation improvements.
- Support CRP and UAT, investigate complex Fusion behavior, coordinate technical resolutions, and work with Oracle Support when product confirmation is required.
- Prepare technical designs, API specifications, mapping documents, test scripts, deployment instructions, evidence packs, and operational runbooks.
- Technical environment: Oracle Fusion Cloud, OIC Gen 3, BI Publisher, Oracle ATP, SQL/PLSQL, REST, SOAP, JSON, XML, XSLT, FBDI, UCM, ESS, and Salesforce integrations

2018 - 2026

**Freelance Software Engineer | Oracle Cloud, Web & API Solutions**, *Freelance*

- Delivered small-scale software projects and technical support across websites, web applications, APIs, databases, documentation, troubleshooting, and software setup tasks.
- Built Oracle Cloud technical projects and proof-of-concepts using OIC, Fusion Cloud, BI Publisher, FBDI, ESS Jobs, VBCS, APEX, Workflows, REST/SOAP APIs, FTP/SFTP, ADW, Object Storage, and SQL/PLSQL.
- Developed integration scenarios covering BIP report automation, purchase order file delivery, sales data loading, supplier FBDI migration, event-driven notifications, and Fusion-to-external REST API flows.
- Supported clients and learners with debugging, technical issue analysis, database queries, API concepts, documentation, and structured problem solving.
- Applied HTML, CSS, JavaScript, Node.js, SQL, Git/GitHub, Linux, Python, Java, and Oracle Cloud tools in freelance, training, and portfolio-based projects.

2022 - 2026

**Programming & IT Instructor**, *Self-employed*

- Delivered programming and IT training in web development, object-oriented programming (OOP), data structures and algorithms, databases, APIs, Git/GitHub, and problem solving.
- Designed learning plans, and hands-on examples to support practical technical skills.
- Mentored learners in debugging, project implementation, exam preparation, and real-world software development practices.

2018 - 2020

**Computer Teacher**, *Albatool International School*

- Taught computer science and IT subjects, including computer fundamentals, digital skills, and programming concepts.
- Prepared lesson plans, assignments, quizzes, and practical classroom activities.
- Supported students in developing problem-solving, logical thinking, and digital literacy skills.

## EDUCATION

**Bachelor of Science Degree in Computers and Information**
*Faculty of Computers and Artificial Intelligence, Cairo University, Egypt — 2015*
Graduation Project: **A+**
